

Your Courtroom Deserves the Gold Standard

THE POWER OF REMOTE, WORLD-CLASS COURT REPORTERS

Anchoring the RevoText solution is a roster of the highest caliber court reporters in the business. Clients are awed by the transcript quality, the speed of delivery, and the spectrum of services made possible by real-time court reporters.

RAPID, HASSLE-FREE INSTALLATION & INTEGRATION

Our secure connection from your courtroom to remote court reporters operates independently of the court network. Beyond that, all technical service and upgrades occur remotely. We'll have you up and running

with remote reporters in four weeks or less after final approval. And we customize every installation to the unique needs of your court.

TRANSCRIPTS OF IMPECCABLE QUALITY WITH WHITE-GLOVE SERVICE

Our services begin with the gold standard, a large team of remote, world-class court

reporters. From there, we take it a step further—each of our remote court reporters is real-time capable, confirmed through national certification and through a stringent vetting process.

For you, that means an error-free, verbatim record of proceedings. It means unparalleled service and competitive pricing. It means that all transcripts adhere to established rules of civil procedure and are delivered on a timeline that meets or exceeds your expectations.
